MINI PROJECTS

1. E-commerce frontend   **Using** : HTML,CSS,JavaScript
Responsive e-commerce web application frontend using HTML, CSS, and JavaScript, incorporating key features such as a search functionality to enhance user experience and streamline product discovery.
Link : https://estore-commerce.netlify.app

2. Portfolio Website Design   **Using** : Figma MERN
Personal portfolio website to showcase my projects and skills. This application highlights my capabilities in full-stack development and serves as a dynamic platform for self-expression and professional presentation.

3. FoodBlog Recipe Website   **Using** : Wordpress
Food blog recipe website using Bloom theme, designed to feature and organize a large collection of recipe blogs. Enhanced the site's functionality and user experience to support extensive content management and reader engagement.

INTERNSHIP AND TRAINING

MERN Bootcamp at SkillBridge   July 29 - Sep 19
Intensive bootcamp at Skillbridge Company, where I gained hands-on experience and proficiency in the MERN stack (MongoDB, Express.js, React.js, Node.js).Gained practical experience in building and integrating web applications, with a focus on developing backend functionality with Express.js, managing data with MongoDB, and creating dynamic user interfaces with React.js.

Frontend Internship at Codeboosters   Jan 24 - Feb 24
During my one-month online frontend internship at Codeboosters, I successfully completed tasks that included developing a captcha generator and implementing a bottom navigation bar for a project to be uploaded on GitHub.
